

Micro-Klean™ D-CCT SERIES FILTER CARTRIDGES

Product EHS & Regulatory Information

This document provides basic information with regard to the compliance of the above product with various regulatory and industry standards. For other product information or if you have questions regarding regulations or standards not covered in this document please contact 3M Purification.

1) Manufacturer

3M Purification, 3M Poland Sp. z o. o., Al. Katowicka 117, 05-830 Nadarzyn

2) Product Descriptions Covered by this Document

Nominal Micron rating (micron)	Simple Length (250 mm)	Double length (500 mm)	Triple length (750 mm)
1	D-CCTY	D-CCTY-2	D-CCTY-3
3	D-CCTA	D-CCTA-2	D-CCTA-3
5	D-CCTB	D-CCTB-2	D-CCTB-3
10	D-CCTC	D-CCTC-2	D-CCTC-3
25	D-CCTF	D-CCTF-2	D-CCTF-3
50	D-CCTL	D-CCTL-2	D-CCTL-3
75/150	D-CCTHD	D-CCTHD-2	D-CCTHD-3

3) Composition

Filter Media	Cotton
Filter Matrix	Cotton
Core	316 Stainless Steel

4) Compliance with Regulatory and Industry Standards

MSDS

This product is defined as an article under REACH and does not require a Safety Data Sheet under Article 31 of Regulation (EC) No. 1907/2006.

Food Contact - Regulation (EC) 1935/2004

The Micro-Klean™ D-CCT Series filter cartridges comply with the general requirements of Regulation (EC) 1935/2004 in that the materials of construction comply with recognized standards for food contact. A full declaration of compliance is available, contact 3M Purification for details.

FDA CFR21

All materials of construction used in Micro-Klean™ D-CCT Series filter cartridges are listed for food contact in the FDA CFR Title 21 as follows;

Cotton	177.2800
Stainless steel	GRAS

Animal Derived Products (BSE/TSE)

3M Purification understands the continued public interest and the increased regulatory scrutiny concerning the transmission of bovine spongiform encephalopathy (BSE) and other transmissible spongiform encephalopathies (TSE). In order to address these issues, the following statement is offered:

3M Purification does not use animal or animal derived materials in the manufacture of Micro-Klean™ D-CCT Series filter cartridges and they are not known to be present. In addition animal or animal derived materials are not used directly in our manufacturing processes.

Regulation (EC) 1907/2006 REACH:

Micro-Klean™ D-CCT Series filter cartridges are articles with no intended release of a chemical substance, under the REACH regulation (Article 3(3)) and are therefore not subject to pre-registration or registration requirements.

With regard to Substances of Very High Concern (SVHC) to the best of 3M's knowledge, the chemicals from the Candidate List as amended on 17th January 2014 are not present at or above 0.1%.

The cartridges as supplied by 3M are not considered to be dangerous within the meaning of Article 2 of Directive 67/548/EEC and its amendments or Article 2 of Directive 1999/45/EC. Therefore they are not within the scope of Regulation (EC) 1907/2006 Article 31 requiring the provision of a safety data sheet.

Directive 2011/65/EC 'RoHS'

Micro-Klean™ D-CCT Series filter cartridges are not electrical and do not rely on electrical currents or electromagnetic fields to operate, they are therefore not in scope of this directive. However to the best of 3M's knowledge the product does not contain any of the listed substances in excess of the maximum concentration values in the Directive.

Allergens

Micro-Klean™ D-CCT Series filter cartridges do not knowingly contain any allergens as defined by Annex IIIa of European Directive 2000/13/EC as amended by Directive 2007/68/EC.

Genetically Modified Organisms (GMOs)

Micro-Klean™ D-CCT Series filter cartridges contain cotton sourced from the USA. It is unknown by 3M Purification if this cotton is from a genetically modified strain. However according to the latest estimate from the USDA (2010) 93% of the cotton produced in the USA is a genetically modified strain therefore it is most likely that the cotton used in these products is genetically modified. All other components of these filter cartridges do not knowingly contain GMOs as defined by Article 2(2) of European Directive 2001/18/EC.

Phthalates

3M Purification does not use phthalate plasticisers in the manufacture of Micro-Klean™ D-CCT Series filter cartridges and they are not known to be present including;

Di-n-butyl phthalate (DBP)	CAS 84-74-2
Di (2-ethylhexyl) phthalate (DEHP/DOP))	CAS 117-81-7
Di-isodecyl phthalate (DIDP)	CAS 26761-40-0
Di-n-hexyl phthalate (DNHP)	CAS 84-75-3
Di-Isononyl phthalate (DINP)	CAS 28553-12-0
Di-isobutyl phthalate (DIBP)	CAS 84-69-5
Butyl benzyl phthalate (BBP)	CAS 85-68-7
Dipentyl phthalate (DPP)	CAS 131-18-0

Bisphenol A (BPA)

3M Purification does not use BPA in the manufacture of Micro-Klean™ D-CCT Series filter cartridges and it is not known to be present.

Latex

3M Purification does not use natural rubber latex in the manufacture of Micro-Klean™ D-CCT Series filter cartridges and it is not known to be present.

Aflatoxins/Mycotoxins

Micro-Klean™ D-CCT Series filter cartridges are not intended for human consumption and are manufactured from materials that would not be considered as sources of aflatoxins/mycotoxins. Therefore aflatoxins/mycotoxins are not known to be present in the products as supplied however 3M does not test for the presence of aflatoxins/mycotoxins.

Ionising Radiation

Micro-Klean™ D-CCT Series filter cartridges do not undergo ionizing radiation treatment.

Nanotechnology

Micro-Klean™ D-CCT Series filter cartridges do not knowingly incorporate nanotechnology, defined as the application of engineered structures at the nanoscale (<100nm).

Disclaimers: The information provided in this document related to material content represents 3M Purification's knowledge and belief, which may be based in whole or in part on information provided by suppliers to 3M. This is intended to answer commonly asked questions about 3M Purification products and is not intended to be a comprehensive listing of all substances that may be of interest or that may be regulated in this or other 3M products, nor is it intended to be a comprehensive summary of any and all regulations that may apply to this product. Where substances are listed, their listing does not infer or constitute a judgment as to their safety, environmental or health impacts. Information is supplied upon the condition that the persons receiving the same will make their own determination as to its suitability for their purpose prior to use. Customers are encouraged to consult with legal and regulatory experts to determine applicable regulations in light of intended use of the product.

Limitation of Remedies and Liability: In the event any Product is proven not to conform with 3M's certification, then to the extent permitted by law, 3M's entire liability and Buyer's exclusive remedy, will be at 3M's option either: (i) replacement of Product with a conforming product, or (ii) refund of the purchase price paid by Buyer for each non-conforming Product, within a reasonable time after written notification of said non-conformance and return of said Product to 3M. 3M shall not under any circumstances be liable for direct, incidental, special, or consequential damages (including but not limited to loss of profits, revenue, or business) related to or arising out of this certification, including, the use, misuse or inability to use the Product. Unless stated otherwise in writing, the foregoing language cannot be waived, modified, or supplemented in any manner whatsoever.
